

Infosys Campus Hiring 2026

Placement AI Co-Pilot — RAG Reference Document

IMPORTANT SOURCE STATUS: This is an unofficial RAG reference compilation. It combines information from Infosys' official 2026 HackWithInfy materials and a 2026 Infosys Campus Recruitment Program communication hosted by an educational institution. It is not a single official Infosys campus-hiring PDF.

1. Infosys Campus Recruitment Program — Reported 2026 Information

A 2026 Infosys Campus Recruitment Program communication hosted by PTU lists academic eligibility requirements, no-active-backlog requirements, relocation expectations and willingness to work across technologies. The document is useful as a recruitment-reference source but is not hosted on the Infosys website.

2. Academic Eligibility

Qualification	Reported requirement
Class 10	60% or equivalent
Class 12	60% or equivalent
Diploma (if applicable)	65%
B.E./B.Tech	65% or 6/10, depending on the applicable qualification combination
M.E./M.Tech	Not applicable in some combinations; 65% or 6/10 in applicable combinations

- Percentages/CGPA are stated to be calculated as a simple average across all subjects, semesters and years, including electives, optional subjects, additional subjects, practical subjects and languages.
- If a candidate has completed both Class 12 and Diploma, the better of the two is considered according to the referenced recruitment communication.
- No active backlogs are allowed.
- Candidates should be willing to relocate to locations required by Infosys.
- Candidates should be willing to work in different technologies as required by Infosys.

3. Reported Hiring Roles — 2026 Campus Program

A July 2026 campus-recruitment communication for the 2027 graduating batch lists Specialist Programmer and Digital Specialist Engineer pathways. Publicly indexed campus information also reports Specialist Programmer L3, L2 and L1 roles and a Digital Specialist Engineer role. Exact role availability can vary by drive.

Role	Publicly reported 2026 compensation
Specialist Programmer L3 (Trainee)	■21 LPA
Specialist Programmer L2 (Trainee)	■16 LPA
Specialist Programmer L1 (Trainee)	■10 LPA + ■1 lakh joining bonus
Digital Specialist Engineer (Trainee)	■6.25 LPA + ■75,000 joining bonus

4. Assessment / Selection Information

The 2026 campus-recruitment material indexed publicly describes a programming-oriented assessment followed by technical evaluation. Exact assessment structure, duration and role mapping can vary by hiring drive. For HackWithInfy 2026 specifically, Infosys' official terms state that Round 1 and Round 2 are three-hour coding assessments, followed by a four-day Grand Finale for selected participants.

5. HackWithInfy 2026 — Official Infosys Information

Infosys' official HackWithInfy 2026 page invites engineering students graduating in 2027. The published schedule lists the Starting Block from January–March 2026, Round 1 in March, Round 2 in April, and the Grand Finale in November 2026.

The official terms state that Round 1 and Round 2 are three-hour coding assessments. The top 100 participants from Round 2 are selected for the Grand Finale based on criteria including overall score and/or sectional cut-off, test cases passed and code efficiency, as determined by Infosys.

Infosys also states that HackWithInfy can provide pre-placement interview opportunities for Specialist Programmer and other specialized roles, along with internship and project opportunities.

6. Technical Preparation Areas — Source-Grounded

The official Infosys ESG/digital-skilling material states that campus hires undergo a 19–23 week Foundation Program and that the curriculum covers more than 45 technology streams. It specifically mentions generative AI and prompt engineering among recent additions, alongside IT fundamentals, enterprise application development and professional skills such as business communication, teamwork, critical thinking and design thinking.

7. RAG Scope

This reference should be used for questions about Infosys 2026 campus recruitment, reported academic eligibility, role information, HackWithInfy 2026 and Infosys' publicly documented early-career preparation information. It should not be treated as a universal Infosys hiring policy for every campus or future hiring cycle.

8. Recommended RAG Questions

- What are the reported academic eligibility requirements for Infosys campus recruitment?
- Are active backlogs allowed?
- How is the academic percentage/CGPA calculated?
- What are the reported Infosys campus roles and compensation?
- What is HackWithInfy 2026?
- Who is eligible for HackWithInfy 2026?
- How many rounds are there in HackWithInfy 2026?
- What is the duration of the HackWithInfy coding rounds?
- What does the Infosys Foundation Program cover?

9. Sources

- Infosys official HackWithInfy 2026 page and official Terms & Conditions.
- Infosys Integrated Annual Report 2025–26.
- Infosys ESG / Digital Skilling information for FY 2025–26.
- Infosys Campus Recruitment Program communication hosted by PTU (third-party institutional host).

Prepared for Placement AI Co-Pilot RAG ingestion. Official Infosys information and third-party campus-recruitment information are explicitly distinguished in this document.
